## Project Description

The project consists of a short-term loan (Working Capital Solutions, WCS) for up to US\$50 million, consists of a mobilization of US\$30 -US\$40 million through IFC led B-Loan investments and IFC own investment of up to US10 – US\$20 million in Dhaka Bank Limited (the "Bank" or "Dhaka Bank") to support the expansion of the USD denominated trade business of the Bank through its Offshore Banking Unit. This will be the first syndication for a Financial Institution in Bangladesh with commercial banks as investors, hence creating a market for international commercial banks to invest in syndicated loans to Banks in Bangladesh and enhancing the Bank's access to finance.

### People Affected By This Project

- i. Improved Access to Finance: The Project will increase access to finance for credit-constrained, export-oriented companies and SMEs to meet working capital requirements. It will also expand financial intermediation.
- ii. Job Creation: IFC's investment will further support business growth and spur job creation in the SME and export-oriented segments.
- iii. Boost Export Competitiveness: The project will help economic growth in Bangladesh by providing exporters with trade finance solutions to their working capital requirements and assist in payments for imports utilized. This, in turn, improves their working capital cycle, thereby providing a boost in exports.

## Financial Intermediary

Financial Intermediary: A commercial bank or financial institution that receives funds from a development bank. A financial intermediary then lends these funds to their clients (private actors) in the form of loans, bonds, guarantees and equity shares. Financial intermediaries include insurance, pension and equity funds. The direct financial relationship is between the development bank and the financial intermediary.

## Private Actor Relationship

There is often limited information publicly available about what development banks are funding through financial intermediaries. In 2021, the Early Warning System partnered with Oxfam International to incorporate information on high-risk projects being funded by financial intermediaries receiving funding from the International Finance Corporation (IFC) and the Dutch Development Bank (FMO).

The information listed below describes the relationship between the different private actors linked to high-risk sectors and subprojects of IFC and FMO's financial intermediary investments and/or the financial intermediary's parent companies made from 2017 through 2020, including any associated ring fences.

The database, however, does not explicitly or implicitly imply that IFC or FMO have material exposure to or are contractually or legally accountable to the sub-projects financed by their financial intermediaries or the financial intermediary's parent companies. It only shows a seemingly financial relationship among the different private actors, the financial intermediaries, and IFC or FMO.

## Private Actors Description

## ACCOUNTABILITY MECHANISM OF IFC

The Compliance Advisor Ombudsman (CAO) is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an IFC or MIGA- financed project. If you submit a complaint to the CAO, they may assist you in resolving a dispute with the company and/or investigate to assess whether the IFC is following its own policies and procedures for preventing harm to people or the environment. If you want to submit a complaint electronically, you can email the CAO at [CAO@worldbankgroup.org](mailto:CAO@worldbankgroup.org). You can learn more about the CAO and how to file a complaint at <http://www.cao-ombudsman.org/>
