IFC's proposed investment will help Arohan to diversify its sources of funding and to expand the outreach of access to microfinance to borrowers who have little or no access to formal sources of financing.

The project will have the following two components:

- 1. Access to Microfinance:** This will support the company in expanding the outreach of access to microfinance to borrowers, especially low-income households, who have little or no access to formal sources of financing.
- 2. Balanced growth of Microfinance:** This investment will promote a more balanced growth of microfinance in India.
