Project Description

According to bank documents, the objective of the project is to provide an export pre-financing facility to Agri-Resources Madagascar SA for the purchasing and processing of vanilla beans for exports to international off takers.

The proposed investment is a US\$ 2.65mn loan to Agri-Resources Madagascar for a short-term (1 year, renewable 2 times) export pre-financing backed by vanilla offtake contracts with reputable offtakers. Funds will be used to purchase and process vanilla. To ensure traceability of its supply, AgriRM is sourcing vanilla from 8 cooperatives, 1,000 farmers grouped in one association near Antalaha, and from 10 collectors. AgriRM is also producing its own vanilla on 3 leased land lots (12, 10, and 125 ha), in an agricultural area.
