- 1. Rebuilding Confidence in the Market Due to the current economic crisis as a result of Covid-19, and the drop in crude oil price, most correspondent banks are freezing their existing lines and/or reducing their exposure to Nigerian banks. The engagement with Union Bank will send a positive signal in general, to investors and other international financiers.
- 2. Increasing Trade in an IDA Country Increasing supply of capital and consumer goods in an IDA country, leading to jobs, food security and wealth creation.
- 3. Access to Trade Increasing access to trade finance solutions by corporate and SME clients that the Bank serves. The line will support trade activities that promote critical sectors such as Fast-Moving Consumer Goods (FCMG), Manufacturing, Agriculture, Services, Oil & Gas, Telecommunication and Construction.
