Project Description

The proposed investment in Corporación de Crédito Contactar (Contactar or the Company) consists of: (i) an up to five-year senior loan of up to US\$15 million to be provided in the Colombian peso equivalent for IFC's own account, and (ii) up to five-years parallel loans of up to US\$25 million to be provided in the Colombian peso equivalent, to be mobilized by IFC on a best-effort basis. The purpose of the proposed investment is to support the Company's lending program to microenterprises in Colombia with a focus on rural areas and frontier regions (the Project). Under the Project, IFC would be supporting a midsize non-deposit-taking microfinance institution (MFI) to reach underserved microenterprises.

People Affected By This Project

The most significant, expected Project-level outcome is increased access to finance for microentrepreneurs from Colombia's underserved segments including rural, low-income, and agribusinesses. Beyond the Project-level outcomes, IFC anticipates the Project has the potential to promote greater market competitiveness through the demonstration and replication channel.
