## Project Description

According to IFC website, the main project-level outcomes are sustained access and quality of port services in Turkey, through an investment that enables the country's largest container port operator to stabilize its credit rating and undertake capex investments in the near term. At the market level, this investment contributes to sustaining access to global capital markets with potential positive signaling effects.

## ACCOUNTABILITY MECHANISM OF IFC

The Compliance Advisor Ombudsman (CAO) is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an IFC or MIGA- financed project. If you submit a complaint to the CAO, they may assist you in resolving a dispute with the company and/or investigate to assess whether the IFC is following its own policies and procedures for preventing harm to people or the environment. If you want to submit a complaint electronically, you can email the CAO at [CAO@worldbankgroup.org](mailto:CAO@worldbankgroup.org). You can learn more about the CAO and how to file a complaint at <http://www.cao-ombudsman.org/>
