## Project Description

According to the bank document, Shandong Weigao Group Medical Polymer Company Limited (“Weigao”, or the “Company”), a Chinese medical consumable company listed on the Hong Kong Stock Exchange, is planning to invest in several green capital expenditure projects along its manufacturing process, which will include energy and water efficiency as well as pollution reduction measures (the “Project”). Weigao is organized into three operating divisions:

(i) Single-use consumables (infusion set, syringes, medical needles, blood bags, pre-filling syringes, blood sampling products),

IFC is considering an investment in Weigao through a long-term green bond of RMB 1 billion (approx. US\$142 million equivalent) for implementation of resource efficiency and environmental protection measures, such as power optimization with retrofit transformers, wastewater recycling plant and electron beam sterilization (thereby replacing ethylene oxide) across its manufacturing operations (the “project”).
