Project Description

Founded in 1941, Laboratorios Sanfer (“Sanfer”) is the second largest domestic pharmaceutical company in Mexico and amongst the top 8 largest in Latin America. Laboratorios Bussie, S.A. (“Bussie”) and Laboratorio Internacional de Colombia, S.A.S. (“Labinco”) are fully owned subsidiaries of Sanfer and were acquired in 2008 and 2015, respectively. Bussie and Labinco (hereafter referred to as “Sanfer Colombia”) commercialize a wide portfolio of prescription and over-the-counter (OTC) drugs (e.g. pulmonology, ophthalmology, gastrointestinal, cardiovascular, psychoactive, antiparasitic, antibiotics, and veterinary drugs). With exception of veterinary drugs which are produced by three third-party contract manufacturers, the majority of drugs are produced in Bussie’s and Labinco’s manufacturing plants located in Bogota, Colombia. IFC propose financing a \$11.5 million for the construction of a new manufacturing plant for finished dosage forms, which will replace the existing operations, to satisfy the new and more stringent regulatory requirements from the National Institute for Drugs and Food Surveillance (INVIMA). The new plant will be located in an industrial area in the city of Bogota, a few blocks from the existing plants <https://goo.gl/maps/jDJQN6VqzQBxejQ49>. Administrative offices and the quality control laboratory will remain in separate existing locations.
