Project Description

The proposed investment consists of a one-year, renewable unsecured senior loan of up to US\$30 million to Union Bank of Nigeria PLC (“Union Bank” or “Bank”) under the FIG COVID-19 Emergency Response Working Capital Solutions Envelope (WCS Envelope). The WCS Envelope is designed to provide funding to existing IFC client banks in emerging markets that will then extend new trade-related or working capital loans to companies whose cash flows have been disrupted by the global outbreak of the coronavirus pandemic. The WCS facility will support Union Bank in increasing its lending to Small and Medium Enterprises (“SMEs”) particularly in the healthcare, food and trading sectors to allow them strengthen operations, maintain employment and access critical raw materials.

All projects under the COVID-19 Facility share the same development thesis that, by supporting its clients' capacity to sustain operations during this acute shock, IFC best positions the private sector to support the economic recovery process, shortening the time it will take for the most vulnerable to return to their traditional income-earning opportunities.
