Project Description

According to the bank's website, the project "comprises a convertible senior debt investment of upto US\$15 million in FIG3 Investment Holding Pte. Ltd ("Forte" or the "Company"), the holding company which operates in the insurance sector via its subsidiaries in Cambodia and Lao PDR. The funds will be used to strengthen Forte's capital position, expand its product suite and enhance reach within and outside Cambodia."

As stated in a recent report by Recourse and partners, the funds will be used to strengthen Forte's capital position, expand its product suite and enhance reach within and outside Cambodia. Forte [provides insurance for the oil and gas industry](#).

Bank disclosures on financial intermediary sub-projects are often limited. Although the bank disclosures did not categorize this as an energy project, civil society research has linked this project with oil and gas. Therefore, for purposes of this snapshot and other research, the Early Warning System team has categorized this project as an "Energy" project.

People Affected By This Project

The development impact of the proposed project is the increase in insurance coverage in the non-life segment through both expansion of existing insurance products and introduction of new insurance products in Cambodia and also in other East Asian countries, including Lao PDR. Beyond the Project, IFC anticipates that via demonstration, replication and innovation channels, the investment will foster increased competitiveness in its operating markets by introducing new insurance products and catering to specific needs in the market.
