Project Description

According to the IFC, the project consists of an up to US\$182 million unfunded IFC risk participation in an approximate US\$4 billion global portfolio of predominantly emerging markets trade finance-related credit assets on Crédit Agricole CIB's ("CACIB") balance sheet. This risk participation will support further growth in CACIB's trade finance transactions in emerging markets. The IFC has given this project a risk category of FI-2 (financial intermediary).

Investment Description

- International Finance Corporation (IFC)

The proposed IFC investment is up to US\$182 million in the form of an unfunded risk sharing facility.

Financial Intermediary

Financial Intermediary: A commercial bank or financial institution that receives funds from a development bank. A financial intermediary then lends these funds to their clients (private actors) in the form of loans, bonds, guarantees and equity shares. Financial intermediaries include insurance, pension and equity funds. The direct financial relationship is between the development bank and the financial intermediary.
