Project Description

The proposed project is to invest up to US\$160 million equivalent (in RON and/or EUR) for IFC's own account in Minimum Requirement for Own Funds and Eligible Liabilities (MREL) eligible bonds (senior preferred, SP, and senior non-preferred, SNP) with up to 7 years tenor to be issued by Raiffeisen Bank S.A. (RBRO or the Bank), in line with its funding plan. It is expected that these bonds will be issued under RBRO's green bond framework and will be the first green bonds issued by a financial institution in the country, with use of proceeds earmarked for climate finance, including green mortgages and buildings, energy efficiency, renewable energy, sustainable agri-finance, and clean transport.

People Affected By This Project

The project is expected to:

- i) Help the country achieve its climate change mitigation targets by supporting the first green bond issuance by a financial institution in the country. The entire proceeds from the bond issuance will be used for financing eligible climate finance projects in Romania.
- ii) Support the development of capital markets in the country by deepening and diversifying Romania's corporate bond market. Successful issuance of MREL-eligible bonds is expected to encourage other banks, as well as investors, and help develop the market for MREL instruments.
- iii) Increase the resilience of the Romanian banking sector by supporting a systemic bank and helping it achieve its MREL-targets.

Investment Description

- International Finance Corporation (IFC)

Under the proposed project, IFC would invest up to US\$160 million equivalent in RON and/or EUR denominated MREL-eligible bonds to be issued by RBRO under its green bonds program. IFC would invest up to 40% of each issuance, including both SP and SNP bonds, with actual allocation depending on market interest and resulting from a book-building process.

Financial Intermediary

Financial Intermediary: A commercial bank or financial institution that receives funds from a development bank. A financial intermediary then lends these funds to their clients (private actors) in the form of loans, bonds, guarantees and equity shares. Financial intermediaries include insurance, pension and equity funds. The direct financial relationship is between the development bank and the financial intermediary.
