## Project Description

According to bank provided information, GTLP Absa is a proposed risk sharing facility whereby Absa Bank Ltd (“Absa” or the “Bank”) and IFC would share the risk, on an up to 50:50 basis, in a portfolio of up to US\$250 million of trade transactions originated by Absa (maximum up to US\$125 million for IFC's own account) (the “Project”). The Project will use the Global Trade Liquidity Program (“GTLP”) platform, an innovative and demonstrated trade finance program launched by IFC in 2009, through which IFC will play a countercyclical role to support trade across Africa as the region responds to and recovers from the COVID-19 crisis. In addition to the above Project, an uncommitted trade finance guarantee facility of US\$50 million under IFC's Global Trade Finance Program (“GTFP”) is proposed (“GTFP Absa” and, collectively, with the Project, the “Projects”).
