### **Project Description**

Atlas Tower Kenya (“ATK”, the “Company”) is an independent wireless infrastructure company in Kenya formed in 2018. ATK is subsidiary of the Atlas Tower Group which has prior operating experience of telecommunications tower construction and operations in the USA and South Africa. Atlas Tower Group’s management team has experience of constructing and managing over 4,000 sites globally. IFC is seeking to provide debt financing to i) complete ATK’s capital expenditure program for the construction of 203 built-to-suit (BTS) towers; and (ii) support a further order of up to 253 new towers (“the project”). ATK’s sites are fully managed by the company including all operational services such as site searches, acquisition, design, build, rigging and ongoing maintenance. As an independent tower operator, ATK designs towers for multi-tenant usage, allowing the company to lease tower space to multiple mobile operators.
