## Project Description

The Project is a three-year, unfunded risk sharing facility (the “Facility”) whereby Sumitomo Mitsui Banking Corporation and its affiliates (SMBC Group) and IFC would share the risk, on an up to 50-50% basis, in a portfolio of up to US\$550 million of senior trade loans that SMBC Group provides to banks in the Europe and Central Asia (ECA) region. The proposed project is a renewal of prior SMBC ECA RSF projects.

This project was rated by IFC as having a risk category of F1-2.

---

## People Affected By This Project

The proposed project is expected to provide financing to key financial intermediaries in the ECA region, particularly Turkey in the face of economic, trade, and supply chain disruptions caused by COVID-19. Indirectly, this increased capacity will also improve the availability of credit to local importers and exporters along key value chains and in a wide variety of sectors.

## Investment Description

- International Finance Corporation (IFC)

## Financial Intermediary

Financial Intermediary: A commercial bank or financial institution that receives funds from a development bank. A financial intermediary then lends these funds to their clients (private actors) in the form of loans, bonds, guarantees and equity shares. Financial intermediaries include insurance, pension and equity funds. The direct financial relationship is between the development bank and the financial intermediary.
