## Project Description

According to IFC documents, the proposed investment consists of (i) a VND600 billion convertible bond and (ii) a VND300 billion senior bond to BaF Vietnam Agriculture Joint Stock Company (BaF or the Company) to support the Company's capacity expansion of its farm and food business across Vietnam (the Project). The Project is expected to provide BaF with a significant platform and presence in a fragmented market. With Vietnam's pork sector severely impacted by African Swine Fever (ASF), BaF's expansion is expected to contribute to a recovery of pork supply as well as an improvement in biosecurity across Vietnam.

The Project includes the Company's operations involving 13 sow farms, 18 hog farms, 1 slaughter and processing factory, and 2 feed mills at the following identified locations across Vietnam (locations not listed are as yet unidentified):

### Sow farms:

- Economic Village 2, Eatrol Commune, Song Dinh District, Phu Yen Province
- Hoi Thanh Base, Tan Hoi Commune, Tan Chau District, Tay Ninh Province
- Base 4, Suoi Day Commune, Tan Chau District, Tay Ninh Province
- Suoi Day Commune, Tan Chau District, Tay Ninh Province
- Dang Ha Commune, Bu Dang District, Binh Phuoc Province
- Po To Commune, Ia Pa District, Gia Lai Province
- Giai Xuan Commune, Tan Ky District, Nghe An Province

### Hog farms:

- Suoi Day Commune, Tan Chau District, Tay Ninh Province
- Hoa Hiep Commune, Tan Bien District, Tay Ninh Province
- Thanh Binh Commune, Tan Bien District, Tay Ninh Province
- Thung Base, Duc Binh Dong Commune, Song Dinh District, Phu Yen Province

### Slaughter and processing factory:

- Block B1 Minh Hung - Sikico Industrial Park, Dong No Commune, Hon Quan District, Binh Phuoc Province

### Feed mills:

- Nam Cam Industrial Park, Nghi Xa Commune, Nghi Loc District, Nghe An Province
- Nhon Hoa Industrial Park, Binh Dinh Province

The financing package will help strengthen the Company's capital structure and improve liquidity. This has been proposed to be as important during the current period of market disruption, as the industry has been severely affected by outbreaks of ASF and is experiencing additional turmoil stemming from the COVID-19 pandemic. Knowledge, innovation and capacity building: IFC is looking to provide technical expertise and facilitate knowledge sharing on animal welfare best practices. As part of this initiative, IFC is exploring an opportunity to provide advisory services to support the Company with designing and implementing a group housing transition for its pig farming operations. Standard setting: IFC will support BaF to implement best practices through raising the level of compliance to that of IFC's Performance Standards, European-level animal welfare standards, and industry best practices.

The Project is assessed as part of IFC Agribusiness's African Swine Fever (ASF) Regional Recovery Program, to respond to the impacts of ASF on the regional pork industry. The most significant, expected Project-level outcome resulting from this expansion is the impact on consumers from the provision of safe pork at the time of severe supply shortage as well as implementation of advanced biosecurity procedures at the new farms. At the market level, the Project, alongside other planned
