### Project Description

The Africa Conservation & Communities Tourism Fund, SCSp SICAV – RAIF was established in 2021 as a structured debt vehicle providing loans to ecotourism businesses (safari operators, camps, lodges, hotels, etc.) in conservation areas in sub-Saharan Africa (the “Project”). ACCT is raising up to US\$75m. The Fund is structured using a blended finance approach with three tranches of capital: a junior tranche, a senior tranche and a grant tranche.

The ACCT Fund is a response to conservation threats resulting from the COVID-19 pandemic, with the specific aim of alleviating financial stress in the short to mid-term of well-managed conservation tourism businesses and increasing the conservation and community outcomes delivered by these businesses. As the impact of COVID-19 reduces, the ACCT Fund will also look at supporting operators who can catalyze significant financial flows to conservation activity in unutilized, or underutilized, ecologically important natural landscapes, to the benefit of the wildlife and communities who depend on them.
