## Project Description

The proposed investment consists of a senior loan to Mibanco, Banco de la Microempresa S.A. (“Mibanco” or the “Bank”). The purpose of the investment is to diversify Mibanco’s funding base to support its lending portfolio to both formal and informal women-owned small and medium enterprises (WSMEs) (the “Project”).

The Project will be complemented by an Advisory Services engagement to promote gender inclusion more actively within the Bank’s SME loan portfolio.

## People Affected By This Project

The most significant, expected Project-level outcome is improved access to and quality of finance for WSMEs in underserved regions of Peru. Beyond the Project-level impact, IFC anticipates that the Project is expected to further contribute to market creation through improved market inclusiveness via both the demonstration and replication and the capacity building channels.
