Project Description

According to IFC, the proposed investment comprises an up to 7-year senior debt investment of up to US\$75 million in Aadhar Housing Finance Limited (Aadhar). The proceeds will be utilized to extend financing to retail buyers of affordable/green affordable housing units. The Project is expected to provide counter-cyclical support for the housing needs of lower income groups, who have been severely impacted by the disruptions caused by COVID-19, as well as support green housing, which is still underdeveloped in India, particularly in the affordable segment. Subject to internal approvals, the Project may receive support from the Market Accelerator for Green Construction (“MAGC”) Program as discussed in the Blended Finance Section.

Investment Description

- International Finance Corporation (IFC)

The proposed project envisages a straight senior loan or non-convertible debenture investment of up to US\$90 million equivalent to Aadhar for a tenor of up to 7 years. The proposed financing will be used to provide retail buyers with financing for affordable housing with a focus on the low-income group. A mutually agreed percentage of IFC's loan proceeds will also be earmarked for green affordable housing.

IFC as implementing entity of the Market Accelerator for Green Construction (MAGC) Program, is exploring to support the project through Performance-Based incentive (PBI). This blended concessional finance support aims to support Aadhar's efforts to create a green business line. With the help of this PBI, this new business line would help develop green certified housing units in the affordable residential segment. As part of IFC's commitment to transparency in the deployment of concessional blended finance resources, potential blended concessional finance support has been and continues to be considered in green building discussions with other banks in the country. Further details and historical information on estimated subsidy levels in IFC's blended finance portfolio can be found at: www.ifc.org/blendedfinance. As is the case with all of IFC's blended concessional finance co-investments, this Project will be assessed against the Enhanced Blended Concessional Finance Principles for DFI Private Sector Operations adopted by IFC and more than 20 other DFIs in 2017. Further information on these Enhanced Principles and IFC's blended finance approach and governance can also be found at: www.ifc.org/blendedfinance.

Financial Intermediary

Financial Intermediary: A commercial bank or financial institution that receives funds from a development bank. A financial intermediary then lends these funds to their clients (private actors) in the form of loans, bonds, guarantees and equity shares. Financial intermediaries include insurance, pension and equity funds. The direct financial relationship is between the development bank and the financial intermediary.
