Project Description

According to the Bank's website, the projects entails an unfunded Risk Sharing Facility ("RSF) of up to US\$ 10 million equivalent in LCY, guaranteeing 50% of an up to US\$20 million small and medium enterprises ("SME") loan portfolio to be originated by Access Bank Ghana Limited. The Project will support the Bank to enhance its lending to SMEs. The Project will be processed under IFC's Small Loans Guarantee Program (SLGP EC/PSW, or the Program), a programmatic approach to de-risk and scale up financing for SMEs in eligible countries.

Early Warning System Project Analysis

The proposed investment entails a risk sharing facility of up to US\$10million with Access Bank Ghana on a portfolio of eligible MSMEs. The Bank's current SME portfolio includes exposures to sectors such as commerce sector and contactors, agriculture, and construction and real estate. As such, the portfolio supported under the RSF is expected to comprise business activities with limited adverse environmental and social risks or impacts that are few in number, generally site-specific, largely reversible and readily addressable through mitigation measures.

The main E&S risks and impacts of this project relate to the ability of Access Bank Ghana to identify and manage the potential E&S risks and impacts associated with the lending activities to SMEs, as well as the bank's labor practices. The E&S risks and impacts associated with SME activities are typically low to medium environmental and social risks such as waste management, pollution prevention, labor and working conditions and occupational health and safety, etc.
