### Project Description

According to IFC documents, the proposed investment is a loan of up to \$ 69 million to HSL. The proceeds will be utilized towards part financing HSL's terry towel plant capacity expansion through debottlenecking, implement specified decarbonization actions and to refinance long term debt ("the Project"). The debottlenecking is expected to increase HSLs terry towel production capacity by 60% to 40,000 tpa at its Terry Division located at HSLs integrated Hassan Plant campus (Plant co-ordinates: 12°57'21.9N 76°05'51.6E) in Karnataka. The proposed debottlenecking based expansion includes neither additional land parcel requirements nor any major building infrastructure to be developed. IFC does not have any past investment experience with the Company.
