## Project Description

As stated on the project disclosure page, the IFC will provide long-term US Dollar working capital financing to be utilized across the two group companies, Pran Dairy Limited (PDL) and Habiganj Agro Limited (HAL).

The use of proceeds will be limited to HAL and PDL for purchase of imported raw material (flour, sugar, milk powder, vegetable fat, resin, packaging material, etc.), and operational expenditures (OPEX, spare parts, maintenance, etc.). HAL was incorporated in 2010 and contributes significantly to PRAN diverse product portfolio, specializing in confectionary, biscuits and bakery, beverages, snacks, feed meal, and flexible packaging. PDL started its operations in 2004 and its product portfolio includes dairy products (milk and milk derivatives), confectionary, bakery, carbonated soft drinks and juices.

No expansion of HAL and PDL operational footprint is considered for this project-financed loan.

Moreover, as part of an associated advisory engagement:

1. IFC will help build capacity of second-tier suppliers and franchisees of Pran on food safety, including working with smallholders to improve adoption of Good Agriculture Practices in 3-4 commodities (cassava, dairy, rice etc.); and
2. IFC will work with Pran on decarbonization initiatives – focusing on alternative fuel for electricity generation, improving efficiency of delivery of utilities, reducing demand for water, energy in processing and packaging, reducing volume of effluent and improving efficiency of Effluent Treatment Plant and potentially, converting waste to resource.
