## Project Description

According to IFC, the proposed project envisages a rupee denominated investment into securitized assets of Shriram Transport Finance Company Limited (STFC) through Pass Through Certificates (PTCs) of up to USD 300 million equivalent (of which up to USD150 million will be through IFC's own account and remaining through mobilization). The proposed project supports vehicle financing for micro, small and medium enterprises (MSME), particularly the micro segment, with a focus on the low-income states (LIS) and rural regions of India. The Covid-19 pandemic has aggravated the already weak economic environment for this segment since they are less resilient to exogenous shocks. Through this project, IFC will provide liquidity to the extremely important MSME segment through NBFCs, and enable resilient business recovery.
