Votorantim Cimentos Decarb

Quick Facts

Countries	Brazil
Specific Location	City of Salto, São Paulo State
Financial Institutions	International Finance Corporation (IFC)
Status	Proposed
Bank Risk Rating	B
Borrower	Votorantim Cimentos S.A.
Sectors	Industry and Trade
Investment Type(s)	Loan
Investment Amount (USD)	\$ 150.00 million
Project Cost (USD)	\$ 150.00 million

Project Description

The proposed investment is a US\$150 million A Loan to Votorantim Cimentos S.A. (“Votorantim Cimentos” “VC” “Parent Company” or the “Company”), one of the largest Brazilian producers of cement and the subsidiaries of Votorantim S.A. (the “Holding”). The proposed loan consists of CAPEX for enhancing the cement co-processing capacity of Salto’s Plant (SP), in Sao Paulo State by upgrade of kiln W4 and construction of new residue derived fuel (RDF) facility for refining solid non-hazardous and hazardous waste with the install capacity of 120,000 tons/year. Currently, the Salto Plant substitutes fossil fuels with approximately 34% of alternative fuels (using biomass - wood chips, used tires, residue derived fuel (RDF) and hazardous RDF (HRDF)). After the upgrade RDF, HRDF and tires will be used. The project aims to approximately double use of alternative waste fuels after the upgrade of Kiln W4. The upgrade of the kiln W4 will include increased calciner residence time, new raw mill conversion of electro filters to bag filters and application of Selective Non-Catalytic Reduction (SNCR) which will be used to control NOx air emissions. The Salto Plant is located in the municipality of Salto de Pirapora on road João Guimarães SP 104 km 4.5 in a rural area of Sao Paulo State. The plant has been in operation since 1977 and produces cement, aggregates and agricultural lime. The total site comprises 242 km² and includes two limestone quarries, Ponte Alta (and Salto. The site is separated by the road. Limestone is transported by a closed conveyor belt from the Ponte Alta quarry crossing the road by overhead and with trucks on internal roads from the Salto quarry. The nearest town is Piraporinha, 3.2 km to the south and a small community Alta Vista, 1.5 km to the west.

ACCESS TO INFORMATION

You can submit a request for information disclosure at: <https://disclosures.ifc.org/#/inquiries>.

If you believe that your request for information from IFC has been unreasonably denied, or that this Policy has been interpreted incorrectly, you can submit a complaint at the link above to IFC's Access to Information Policy Advisor, who reports directly to IFC's Executive Vice President.

ACCOUNTABILITY MECHANISM OF IFC/MIGA

The Compliance Advisor Ombudsman (CAO) is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an IFC or MIGA- financed project. If you submit a complaint to the CAO, they may assist you in resolving a dispute with the company and/or investigate to assess whether the IFC is following its own policies and procedures for preventing harm to people or the environment. If you want to submit a complaint electronically, you can email the CAO at CAO@worldbankgroup.org. You can learn more about the CAO and how to file a complaint at <http://www.cao-ombudsman.org/>
