Indorama Eleme Fertilizer-III

Quick Facts

Countries	Nigeria
Specific Location	Port Harcourt
Financial Institutions	International Finance Corporation (IFC)
Status	Approved
Bank Risk Rating	B
Voting Date	2023-11-20
Borrower	INDORAMA ELEME FERTILIZER AND CHEMICALS LTD
Sectors	Industry and Trade, Infrastructure, Transport
Investment Type(s)	Loan
Investment Amount (USD)	\$ 1,250.00 million
Loan Amount (USD)	\$ 1,250.00 million
Project Cost (USD)	\$ 1,250.00 million

Project Description

As stated by the IFC, the Indorama Corporation, a Singapore-based holding company, is a long standing, repeat IFC client. Over the last 3 decades, IFC has supported Indorama's entry into high-risk markets, helping it grow from a mid-sized, domestically focused business into one of the world's fastest growing petrochemical and fibre companies.

In June 2016, Indorama successfully completed a 1.4 million metric ton per annum (MMTPA) urea fertilizer facility (Line 1) in Nigeria via Indorama Eleme Fertilizer and Chemicals Limited (IFL), making it the first major fertilizer export plant in Nigeria and one of the few in Africa. For Line 1, IFC provided a US\$150 million A Loan, a US\$75mn B Loan and mobilized US\$150 million from several development finance institutions.

IFL constructed a second urea fertilizer line located at the same site as Line 1, which increased capacity from 1.4 MMTPA to 2.8 MMTPA (Line 2). To support Line 2, IFC arranged in June 2018, financing totalling US\$1 billion, comprising of US\$120 million A Loan, US\$550 million B Loan, and US\$330 million parallel loans. Line 2 was completed in April 2021. Both Line 1 and 2 projects are in operation, with capacity to produce a combined 2.8 MMTPA of urea.

IFC also financed the construction of a Feed Conditioning Unit, an add-on gas processing facility to Line 2. IFC provided a US\$35mn A Loan and mobilized US\$115mn in B/Parallel loans from commercial banks and other DFIs.

Indorama is now planning the construction of a third urea fertilizer line within the same complex as Lines 1 and 2 in Port Harcourt, Nigeria, which will increase current capacity from 2.8 MMTPA to 4.2 MMTPA (Line 3). A dedicated jetty/port terminal with sufficient capacity to export all the Line 3 urea, and to be located approximately 20 kilometres from the IFL site, is also planned (Line 3 Jetty).

ACCESS TO INFORMATION

You can submit a request for information disclosure at: <https://disclosures.ifc.org/#/inquiries>

If you believe that your request for information from IFC has been unreasonably denied, or that this Policy has been interpreted incorrectly, you can submit a complaint at the link above to IFC's Access to Information Policy Advisor, who reports directly to IFC's Executive Vice President.

ACCOUNTABILITY MECHANISM OF IFC/MIGA

The Compliance Advisor Ombudsman (CAO) is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an IFC or MIGA- financed project. If you submit a complaint to the CAO, they may assist you in resolving a dispute with the company and/or investigate to assess whether the IFC is following its own policies and procedures for preventing harm to people or the environment. If you want to submit a complaint electronically, you can email the CAO at CAO@worldbankgroup.org You can learn more about the CAO and how to file a complaint at <http://www.cao-ombudsman.org>
