As part of the Project, Santander Chile will retain at least 50% of the total portfolio exposure, while IFC will take the risk of the remaining 50% or up to US$150 million. The Project will provide Santander with a risk-mitigation tool which will allow the Bank to preserve capital for a portion of its medium and large loan portfolio. The total capital conserved per annum will be redeployed to generate up to US$150 million to support the Bank’s small and medium enterprises (“SMEs”) and women-owned SMEs (“WSMEs) portfolio.
