## Project Description

The Fund is established and registered as a special limited partnership (SCSp) in Luxembourg, pursuant to the laws of Luxembourg.

The Fund will seek to take significant minority stakes, or in some cases majority stakes, via \$60-70 million tickets (including co-investments), in companies that typically have strong performance, market positioning, growth prospects, potential for expansion, and high-quality management backed by shareholders that are aligned to the Fund's objectives. The Fund will seek to make 10-15 investments, focusing on companies operating at the intersection of financial services and technology.
