Project Description

According to the Bank's website, the proposed project comprises a primary equity investment in Federal Bank Limited ("FBL" or the "Bank"), the seventh largest private sector bank in India, for up to INR9.84 billion (approximately US\$120 million equivalent), by International Finance Corporation (IFC), IFC Financial Institutions Growth Fund, LP (FIG), and IFC Emerging Asia Fund, LP (EAF). The primary equity will strengthen the Bank's Tier 1 capital adequacy ratio, which will allow it to accelerate its lending, including to MSMEs and for climate finance. The investment will support the Bank's commitment to financial inclusion and support it operationalize its strong commitment to sustainability and climate finance. The proposed transaction is subject to all required approvals.

ENVIRONMENTAL AND SOCIAL INFORMATION

Given the Bank's size and diversity of operations, it has exposure to companies operating in high-risk sectors such as infrastructure, chemicals, heavy industries, and large plantations. Some of these sectors and industries, by the nature of their operations, may have high E&S risks and impacts such as those related to Occupational Health and Safety, environment, community health and safety, biodiversity, cultural heritage, involuntary resettlement, and Indigenous Peoples. Hence, the Project has been categorized as FI-1 in accordance with IFC's Environmental and Social Sustainability Policy. The applicable performance requirements to manage the E&S risks of the Bank's activities will be: i) the IFC- FI Exclusion List; ii) the host country E&S laws and regulations; and iii) IFC Performance Standards. In line with the Green Equity Approach, the Bank made a commitment to reduce its long-term project finance and/or corporate finance exposures to coal-related projects to 50 percent by December 2025 (from 2021 levels) and to zero by December 2030. The Bank also agreed on terminating financing of any new coal-related assets, including coal-fired power plants once IFC became a shareholder in the Bank. Accordingly, the Bank has not taken any new exposure to long-term project finance and/or corporate finance for the development of new coal related projects since IFC became a shareholder in 2021, and the historical exposure stands at Zero percent of the portfolio as of March 2023 (down from 3.5 percent at the time of IFC's last investment in 2021). The Bank has working capital facilities to companies involved in coal-related activities at the level of 0.57 percent of the portfolio (down from 1.6 percent at the time of IFC's last investment in 2021). In addition, the Bank has agreed to disclose in its annual reports information on Category A projects (the name, location by city, and sector) committed after IFC investment as well as the Bank's exposure to coal related projects as a percentage of its portfolio.
