Sectors	Climate and Environment, Construction, Energy, Industry and Trade
Investment Type(s)	Loan
Investment Amount (USD)	\$ 90.81 million
Loan Amount (USD)	\$ 90.81 million

Project Description

As stated by the IFC, the Project is a combination of investment preparation and proposed financing to Eneris Alpha S.A., a Luxembourg based company and sole owner of a leading Warsaw-based group with vertically integrated waste management operations in Poland. IFC's pre-investment support to the Company focuses on development of Eneris' long-term sustainability and circular economy strategy and strengthening of corporate E&S capacity to support the Company's growth ambitions.

IFC seeks to provide an up to EUR 80 million financing to Eneris Alpha S.A. The IFC's proposed investment will be used to finance greenfield circular economy projects and strategic acquisitions in the waste management sector in Poland, including municipal and industrial waste collection, sorting and recycling, battery recycling, hazardous waste management, biogas plants, as well as refinancing and strengthening of the Company's capital structure.

Early Warning System Project Analysis

As stated by the IFC, the location of the planned biogas plant is in proximity to an existing biogas plant and within the boundaries of a designated Natura 2000 site.

The HW landfill is planned to be located on a former sulphur mine, which will need to undergo an environmental assessment to identify and delineate potential historical contamination.

Investment Description

- International Finance Corporation (IFC)

Private Actors Description

As stated by the IFC, Eneris is a private company, currently indirectly and wholly owned by Mr. Artur Dela, a Polish-born entrepreneur who initially acquired the Polish waste management business in 2015 and significantly expanded it by developing new product lines in waste management, thereby strengthening its position among the sector's leaders in Poland.

Eneris has been present in the Polish market since 2014 and is a waste management company involved in the collection, processing, recycling, recovery of raw materials and energy from waste, and finally, disposal of the residual, further untreatable materials. In 2015, the Eneris Group purchased the assets of Veolia Usługi dla Środowiska, a company active mainly in municipal waste collection and treatment and created Eneris Surowce, one of the largest Polish companies in sustainable growth full-cycle waste treatment. All acquired assets were already operational. Eneris operates 26 waste management plants/facilities and provides waste collection and winter/summer road maintenance services for municipalities across Poland in 14 voivodeships and over 100 municipalities in Poland, providing services to approximately 1.4 million inhabitants and over 3,000 commercial and industrial clients.

ACCESS TO INFORMATION

You can submit a request for information disclosure at: <https://disclosures.ifc.org/#/inquiries>

If you believe that your request for information from IFC has been unreasonably denied, or that this Policy has been interpreted incorrectly, you can submit a complaint at the link above to IFC's Access to Information Policy Advisor, who reports directly to IFC's Executive Vice President.

ACCOUNTABILITY MECHANISM OF IFC/MIGA

The Compliance Advisor Ombudsman (CAO) is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an IFC or MIGA- financed project. If you submit a complaint to the CAO, they may assist you in resolving a dispute with the company and/or investigate to assess whether the IFC is following its own policies and procedures for preventing harm to people or the environment. If you want to submit a complaint electronically, you can email the CAO at CAO@worldbankgroup.org You can learn more about the CAO and how to file a complaint at <http://www.cao-ombudsman.org>
