Project Description

According to the Bank's website, the Project comprises an investment of up to EUR 150 million (in EUR or US equivalent) in openly syndicated bonds to be issued by Banca Transilvania SA (BT or the Bank), the largest bank in Romania and IFC's long standing partner. IFC will invest in publicly listed instruments which will be MREL-eligible and ranked senior non preferred or senior preferred.

Early Warning System Project Analysis

The Project is investment in MREL-eligible bonds to be issued via several issuances by BT under the current EMTN programme. Use of IFC's funds will be fully earmarked to support eligible green and social projects, including women-owned SMEs, as defined by BT's Sustainable Finance Framework. Green projects may include energy efficiency, clean transport, green real estate development and renewable energy, and social projects are aimed to support employment generation (youth and women-owned) and access to education and healthcare. This Project will not support any activities on IFC Exclusion List, coal-related projects, offshore wind and/or projects involving higher risk business activities such as: a) involuntary resettlement, b) risk of adverse impacts on indigenous peoples, c) significant risks to or impacts on the environment, community health and safety, biodiversity, cultural heritage, or d) significant occupational health and safety risks. The Project has been categorized as FI-2 in accordance with IFC's Sustainability Policy.

The key E&S risks and impacts derive from the Bank's capacity to identify and manage the potential environmental and social risks associated with eligible green and social projects, which may include labor and working conditions, occupational health and safety, waste and wastewater management, hazardous materials use.
