SABESP UCL III

## Quick Facts

<b>Countries</b>	Brazil
<b>Specific Location</b>	City of São Paulo and City of Guarulhos
<b>Financial Institutions</b>	International Finance Corporation (IFC)
<b>Status</b>	Proposed
<b>Bank Risk Rating</b>	B
<b>Borrower</b>	COMPANHIA DE SANEAMENTO BASICO DO ESTADO DE SAO PAULO.
<b>Sectors</b>	Water and Sanitation
<b>Investment Type(s)</b>	Loan
<b>Investment Amount (USD)</b>	\$ 215.00 million
<b>Project Cost (USD)</b>	\$ 215.00 million

## Project Description

The proposed investment consists of a ten-year senior unsecured Sustainability-Linked Loan (“SLL”) for up to US\$215 million to Companhia de Saneamento Basico do Estado de São Paulo (“SABESP” or the “Company”). SABESP, an existing IFC client since 2022, is the largest water and sanitation service provider in Brazil and among the largest worldwide. The Company was founded in 1973 and is controlled by the State of São Paulo and provides water and sanitation services to 28.1 million people in 376 municipalities. IFC use of proceeds would consist of financing three subprojects or components that are part of the “Integra Tietê Program”, one of the most relevant sanitation programs in the country, which aims to improve the Tietê River environmental quality by connecting households to the wastewater collection and treatment systems, therefore avoiding the discharge of untreated sewage into the river. The Integra Tietê Program will be concluded by 2029 and will contribute to SABESP’s goal of universalization of water and sanitation services by 2033. The three subprojects (collectively referred to as the “Project” in this ESRS) are sanitary sewage systems (“SES” for its Portuguese acronym) located in the municipalities of São Paulo and Guarulhos, designed to collect, transport, and treat wastewater and sewage from residential and commercial sources. The three systems include a network of pipes under public roads and premises, sewage lifting stations, and mains that convey the sewage to treatment plants, as follows: (i) SES Perus Leste: consisting of 15,460m of sewage pipelines and five lifting stations, connecting 10,709 households. Construction commenced in June 2023 and is expected to be completed by January 2026. (ii) SES Perus Oeste: consisting of 16,381m of sewage pipelines and three lifting stations, connecting 27,483 households. The subproject includes a new conventional activated sludge wastewater treatment plant (WWTP) that will be designed and built to treat the wastewater coming from SES Perus Leste and Oeste. Construction started in February 2024 and expected to be completed and operational by May 2026. Both SES Perus subprojects will contribute to a 7% increase of SABESP’s wastewater treatment index, benefitting 246,000 people. (iii) Vertentes 2&3: expansion of Guarulhos’ sewage collection system through the implementation of 56,707m of sewage pipelines and sixteen lifting stations, connecting 41,970 households. The collected sewage will be conveyed to the São Miguel WWTP, an existing facility with enough capacity to treat Vertente’s sewage. Construction commenced in May 2023 and will be completed by December 2025. It is expected that Vertentes 2&3 will contribute to an 8.5% increase of SABESP’s wastewater treatment index, benefitting 115,000 people.

## ACCESS TO INFORMATION

You can submit a request for information disclosure at: <https://disclosures.ifc.org/#/inquiries>.

If you believe that your request for information from IFC has been unreasonably denied, or that this Policy has been interpreted incorrectly, you can submit a complaint at the link above to IFC's Access to Information Policy Advisor, who reports directly to IFC's Executive Vice President.

## ACCOUNTABILITY MECHANISM OF IFC/MIGA

The Compliance Advisor Ombudsman (CAO) is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an IFC or MIGA- financed project. If you submit a complaint to the CAO, they may assist you in resolving a dispute with the company and/or investigate to assess whether the IFC is following its own policies and procedures for preventing harm to people or the environment. If you want to submit a complaint electronically, you can email the CAO at [CAO@worldbankgroup.org](mailto:CAO@worldbankgroup.org). You can learn more about the CAO and how to file a complaint at <http://www.cao-ombudsman.org/>
