Project Description

According to the Bank's website, IFC proposes a debt investment comprising a senior secured A loan of up to US\$60 million to Renata PLC with a tenor of up to six years, including a one-year grace period, to finance working capital needs of the Company.

The Project supports the ongoing operations of the Company in manufacturing and distributing essential medicines and helping the importation of key materials for those products during uncertain macroeconomic conditions, such as higher prices of raw materials and foreign exchange shortages. This will enable continued and appropriate access to pharmaceuticals for patients in need in Bangladesh, support the Export growth ambitions of the Company, in addition to preserving the skilled workforce of the Company.

Early Warning System Project Analysis

This is a Category B project according to IFC's Policy on Environmental and Social Sustainability (2012). Based on information reviewed by IFC, the proposed project will have limited adverse E&S impacts that are few, site specific, largely reversible, and readily addressed through existing mitigation measures and good international industry practices (GIIP).

Key E&S risks and impacts associated with the project include: i) labor and working conditions of workers engaged by third parties, ii) wastewater management and pollution prevention, iii) security personnel, and iv) stakeholder engagement activities related to E&S aspects.
