## Project Description

According to the IFC, the proposed investment consists of an up to US\$350 million financing package to Banco Industrial S.A. in Guatemala, composed of: (i) an up to US\$190 million senior unsecured A loan for IFC's own account (IFC A Loan), part of which benefits from US\$90.0 million unfunded mobilization through the Managed Co-Lending Portfolio Program (MCP) FIG III program, in which IFC will transfer the credit risk to insurance companies, which results in a net IFC own-account exposure of not more than \$100 million; and (ii) a mobilized tranche of up to US\$160.0 million from B and/or Parallel Lenders.

The loan proceeds will be used to fund the growth of the Bank's climate-related assets, SMEs portfolio and sustainable housing. The proposed senior unsecured IFC A Loan will have a maturity of up to 4-years, with a 1-year grace period.

The project will contribute to Banco Industrial's SME portfolio, WSME, and corporate climate-related sub-projects. Eligible subprojects will target housing mortgages, green buildings, and climate-smart agriculture sub-projects.

## Private Actors Description

As stated by the IFC, headquartered in Guatemala City, Banco Industrial started operations in 1968, and is currently the leading financial institution in the country, offering a wide range of banking products and services to its customers. As of June 2024, Banco Industrial had total assets of US\$20.2 billion and total equity of US\$1.6 billion, which places it as the largest bank in Guatemala (28.7% market share in terms of assets) and one of the largest in Central America. The Bank's ultimate controlling entity is Bicapital Corporation (privately owned, with more than 2,670 shareholders, none of them individually owns more than 5% of shares), incorporated in the Republic of Panama.

As of June 2024, Industrial offers its products and services through a network of 766 branches, 5,122 banking agents, and 1,453 ATMs throughout the Guatemalan Republic. BI also consolidates Banco Industrial El Salvador (3.3% consolidated assets). The Bank provides a wide variety of banking services, although its loan books is still skewed toward corporate loans.
