## Project Description

According to the Bank's website, ISA Lab is a tech enabled healthcare services company in Brazil. It offers homecare medical services such as vaccination, testing, infusion, clinical visits, and chronic disease management at the patient's home. ISA operates a B2B (business-to-business)/B2B2C (business-to-business-to-consumer) model connecting individual medical professionals ("ISAs") to patients. It has a decentralized model and a network of independent healthcare professionals currently operating in 65 cities across Brazil. ISA does not operate any healthcare facilities and services are limited to home visits where healthcare professionals go directly to the patient's residence to provide medical care and support.

## ACCESS TO INFORMATION

You can submit a request for information disclosure at: <https://disclosures.ifc.org/#/inquiries>

If you believe that your request for information from IFC has been unreasonably denied, or that this Policy has been interpreted incorrectly, you can submit a complaint at the link above to IFC's Access to Information Policy Advisor, who reports directly to IFC's Executive Vice President.

## ACCOUNTABILITY MECHANISM OF IFC/MIGA

The Compliance Advisor Ombudsman (CAO) is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an IFC or MIGA- financed project. If you submit a complaint to the CAO, they may assist you in resolving a dispute with the company and/or investigate to assess whether the IFC is following its own policies and procedures for preventing harm to people or the environment. If you want to submit a complaint electronically, you can email the CAO at [CAO@worldbankgroup.org](mailto:CAO@worldbankgroup.org) You can learn more about the CAO and how to file a complaint at <http://www.cao-ombudsman.org>
