## Project Description

According to the Bank's website, the proposed investment is a 50-50% funded risk-sharing facility with Sumitomo Mitsui Banking Corporation ("SMBC") in a portfolio of trade-related assets for up to US\$600 million with IFC investment of up to US\$300 million. The Project portfolio will consist of Emerging Market Issuing Banks (EMIBs) across Latin America and the Caribbean (LAC) region, ultimately increasing access to trade finance for underlying importers and exporters in LAC.

The Project supports importers and exporters in LAC by providing SMBC the optionality to offer additional trade finance through increased limits and reduced risk and capital costs via the risk-sharing structure. This helps the Bank maintain trade finance capacity for EMIB clients, ultimately expanding access to trade finance for underlying importers and exporters in LAC. By enhancing credit limits and leveraging SMBC's geographic network, the Project strengthens market connections and helps emerging market companies access cross-border markets, promoting greater integration into international value chains and amplifying regional and global economic ties.
