Project Description

According to the Bank’s website, the proposed investment is a funded risk-sharing facility with Standard Chartered in a portfolio of trade-related assets with an IFC investment of up to US$300 million. The Project falls under the GTLP program, an innovative and well-received trade finance program launched in 2009. GTLP has proven to be a highly effective means to channel financing to support emerging market trade flows. The program provides liquidity or guarantees thereby helping banks grow their credit limits, manage risk and support trade in the Emerging Markets.

Early Warning System Project Analysis

This Project will support short-term trade finance activities and therefore has been classified as a **Category FI-3** project according to IFC Sustainability Policy. The trade finance activities that would be supported by the Project will be required to meet the requirements of IFC Exclusion List and other exclusions such as exclusion of coal-related activities and selected higher-risk agro-commodities, including non-RSPO certified palm oil. The Project will not support any activities with significant E&S concerns such as (a) involuntary resettlement, (b) risk of adverse impacts on Indigenous Peoples, (c) significant risks to or impacts on the environment, community health and safety, biodiversity, cultural heritage, or (d) significant occupational health and safety risks.

Investment Description

- International Finance Corporation (IFC)

The total project will be in an amount of at least US$400 million in an underlying portfolio of trade finance assets, with an IFC investment amount of up to US$300 million.
