Project Description

This program aims to reduce the water demand-supply gap in select countries in Africa, currently focusing on South Africa, Tanzania and Kenya. The success of this program will be assessed against: - New instruments/solutions catalyzed through Multi Stakeholder Platforms (MSPs) and under implementation through third-parties - Partnerships: MSPs operational with established governance - Knowledge Development: Development of robust and scientific data and info, incorporating hydro-economic cost-, benefit- and risk-based analysis, to guide the development of solutions Instruments/solutions will include the launch of new financial products and structures (including via PPPs and other models), new third-party projects (e.g. for new technology uptake), and the enactment of policies, regulations, incentives, and institutional/governance reforms. Impacts will vary by country according to the specific solutions prioritized by the MSPs, but will always fall within the following four physical impact categories: - Reduced fresh water abstraction (cubic meters/ year) - Increased cost-effective water storage (cubic meters) - Increased agricultural water productivity (project level production (\$)/ m3 used) - Reduced discharge of untreated waste water / polluted water (cubic meters/ year)

ACCOUNTABILITY MECHANISM OF IFC

The Compliance Advisor Ombudsman (CAO) is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an IFC or MIGA- financed project. If you submit a complaint to the CAO, they may assist you in resolving a dispute with the company and/or investigate to assess whether the IFC is following its own policies and procedures for preventing harm to people or the environment. If you want to submit a complaint electronically, you can email the CAO at CAO@worldbankgroup.org. You can learn more about the CAO and how to file a complaint at <http://www.cao-ombudsman.org/>
