Borrower	2030 WRG
Sectors	Water and Sanitation
Investment Type(s)	Grant
Investment Amount (USD)	$ 2.57 million
Project Cost (USD)	$ 2.57 million

Project Description

2030 WRG is a public-private-civil society partnership, established in 2008. The 2030 WRG represents the coming together of a consortium of corporates, IFC, the World Economic Forum, the UN, individual governments, and international agencies, to elevate water up the global agenda. The objective of 2030 WRG is to accelerate water reforms and generate action to ensure water does not become a barrier to economic growth, while ensuring long-term environmental and social sustainability.
This group will map and recommend innovative financial mechanism that could be adopted by Peru, leveraging government funds with private capital, to deliver much needed priority water resources projects. Specific outputs could be new regulations approved by the Government of Peru (eg the Ministry of Finance) to permit a new investment mechanism.

ACCOUNTABILITY MECHANISM OF IFC/MIGA

The Compliance Advisor Ombudsman (CAO) is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an IFC or MIGA- financed project. If you submit a complaint to the CAO, they may assist you in resolving a dispute with the company and/or investigate to assess whether the IFC is following its own policies and procedures for preventing harm to people or the environment. If you want to submit a complaint electronically, you can email the CAO at CAO@worldbankgroup.org. You can learn more about the CAO and how to file a complaint at http://www.cao-ombudsman.org/
