Project Description

This project will support IFC's strategy by introducing the best available technologies to IFC clients and prospective clients in the healthcare sector in India through implementing the following 4 main components:

- (1) mapping demand and innovation needs of selected private and public healthcare sector companies;
- (2) screening and evaluation of relevant new healthcare technologies offered by young technology providers;
- (3) convening periodic technology match-making events targeted to present and demonstrate technologies; and
- (4) supporting structuring and financing field test projects.

The pilot project will leverage and combine IFC's strong track record in venture capital investment in young companies with its existing network and know-how of 2,000+ investment clients globally who are users of technology.

ACCOUNTABILITY MECHANISM OF IFC

The Compliance Advisor Ombudsman (CAO) is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an IFC or MIGA- financed project. If you submit a complaint to the CAO, they may assist you in resolving a dispute with the company and/or investigate to assess whether the IFC is following its own policies and procedures for preventing harm to people or the environment. If you want to submit a complaint electronically, you can email the CAO at CAO@worldbankgroup.org. You can learn more about the CAO and how to file a complaint at <http://www.cao-ombudsman.org/>
