Project Description

The IFC Advisory Services project is part of the IFC contribution to the WFP Farm to Market Alliance (FTMA) in Tanzania. Increased Tanzanian maize supply by smallholder farmers will be achieved by modernizing and developing local maize supply chains through interventions at two levels: (1) Improving the professionalism of farmer organisations so that they can function more effectively as businesses and provide better services to their members and thereby become more reliable performers in the FTMA maize and soy supply chains. (2) Improving the productivity of smallholder farmers in Tanzania- many of whom are close to or below the poverty line. The project will introduce a productivity package to farmers comprising: improved seed, fertilizer and training in Good Agricultural Practices. The combination of these interventions is expected to double average smallholder yields while strengthening the links between farmer organizations and maize market offtakers.

ACCOUNTABILITY MECHANISM OF IFC

The Compliance Advisor Ombudsman (CAO) is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an IFC or MIGA- financed project. If you submit a complaint to the CAO, they may assist you in resolving a dispute with the company and/or investigate to assess whether the IFC is following its own policies and procedures for preventing harm to people or the environment. If you want to submit a complaint electronically, you can email the CAO at CAO@worldbankgroup.org. You can learn more about the CAO and how to file a complaint at <http://www.cao-ombudsman.org/>
