Project Description

According to bank documents, the objective of this project is to unlock clean technology markets in Morocco by building the capacity of the Morocco Climate Innovation Center/Cluster Solaire and Moroccan ecosystem players to support and scale green businesses in Morocco.

This project will be comprised of the following three components:

1. strengthening the Cluster Solaire / Morocco Climate Innovation Centers (MCIC) business model, quality of services to firms (training delivery, incubation and acceleration), and capacity of staff to better support firms and respond to their needs;
2. supporting outreach and entrepreneurship ecosystem networking efforts in Morocco; and
3. stimulating and supporting cleantech market development through increasing access to early stage finance for clean technology entrepreneurs.

ACCOUNTABILITY MECHANISM OF IFC

The Compliance Advisor Ombudsman (CAO) is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an IFC or MIGA- financed project. If you submit a complaint to the CAO, they may assist you in resolving a dispute with the company and/or investigate to assess whether the IFC is following its own policies and procedures for preventing harm to people or the environment. If you want to submit a complaint electronically, you can email the CAO at CAO@worldbankgroup.org. You can learn more about the CAO and how to file a complaint at http://www.cao-ombudsman.org/
