Project Description

IFC will work with the Panamanian national transmission company, ETESA, to help structure and tender a public-private partnership for the financing, construction and operation of the Transmission Line IV, which will run over 330km in the Atlantic coast region and include a double circuit 500KV (AC) with a capacity of 1,288 MVA.

People Affected By This Project

The development of Line IV, which will form part of Panama's national power transmission system. It will be the first transmission line in the Atlantic coast and will help increase the reliability of the country's electrical system.

ACCOUNTABILITY MECHANISM OF IFC

The Compliance Advisor Ombudsman (CAO) is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an IFC or MIGA- financed project. If you submit a complaint to the CAO, they may assist you in resolving a dispute with the company and/or investigate to assess whether the IFC is following its own policies and procedures for preventing harm to people or the environment. If you want to submit a complaint electronically, you can email the CAO at CAO@worldbankgroup.org. You can learn more about the CAO and how to file a complaint at <http://www.cao-ombudsman.org/>
