## Project Description

According to bank documents, IFC will provide transaction advisory services to the Egyptian Electricity Transmission Company, a company under the Ministry of Electricity and Renewable Energy, to help design and implement Egypt's first solar power auction program, to be rolled out with a first round of 150-200MW. The selected private developer will be responsible for the design, finance, construction, operation and maintenance of a solar PV plant.

## ACCOUNTABILITY MECHANISM OF IFC

The Compliance Advisor Ombudsman (CAO) is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an IFC or MIGA- financed project. If you submit a complaint to the CAO, they may assist you in resolving a dispute with the company and/or investigate to assess whether the IFC is following its own policies and procedures for preventing harm to people or the environment. If you want to submit a complaint electronically, you can email the CAO at [CAO@worldbankgroup.org](mailto:CAO@worldbankgroup.org). You can learn more about the CAO and how to file a complaint at <http://www.cao-ombudsman.org/>
