Project Cost (USD)	\$ 2.18 million

Project Description

According to bank documents, this project aims to support improved water use efficiency and productivity among companies in the agri-processing sector in South Africa, in order to promote sector competitiveness and sustainability. It will work with stakeholders to identify key water efficiency needs and priorities, develop tools to support benchmarking and best practice, address specific policy and regulatory issues, engage with targeted agri-processing companies to provide advisory and implementation support on water efficiency measures, and share knowledge and experiences. The project will also share knowledge and experiences gained in South Africa with agri-processing companies in other parts of Sub-Saharan Africa.

ACCOUNTABILITY MECHANISM OF IFC

The Compliance Advisor Ombudsman (CAO) is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an IFC or MIGA- financed project. If you submit a complaint to the CAO, they may assist you in resolving a dispute with the company and/or investigate to assess whether the IFC is following its own policies and procedures for preventing harm to people or the environment. If you want to submit a complaint electronically, you can email the CAO at CAO@worldbankgroup.org. You can learn more about the CAO and how to file a complaint at <http://www.cao-ombudsman.org/>
