Project Description

The project will follow the diagnostic methodology used in the cross-country Doing Business report and adapt it to the subnational context to measure in Peru the business environment for small and medium-size enterprises in 11 locations beyond Lima. The project will be implemented with support and collaboration from the Ministry of Economy and Finance of Peru (MEF) as institutional counterpart.

People Affected By This Project

The project meets exclusion criteria for measuring impact. SNDB gathers, analyzes and publishes data based on information provided by the private sector. Public sector officials are also involved and participate at various stages of the project. SNDB studies produce primary data on business regulations and identify potential areas for improvement based on its findings. Because SNDB is not directly involved in the process of reforming (providing TA), claiming attribution for the potential impact of those reforms is not recommendable.

ACCOUNTABILITY MECHANISM OF IFC

The Compliance Advisor Ombudsman (CAO) is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an IFC or MIGA- financed project. If you submit a complaint to the CAO, they may assist you in resolving a dispute with the company and/or investigate to assess whether the IFC is following its own policies and procedures for preventing harm to people or the environment. If you want to submit a complaint electronically, you can email the CAO at CAO@worldbankgroup.org. You can learn more about the CAO and how to file a complaint at <http://www.cao-ombudsman.org/>
