## Project Description

IFC will act as PPP Transaction Advisor to PPP-DG to support the implementation of grid connected solar PV IPP projects for Round 2 of up to 750 MW. The projects are expected to not only provide competitively priced clean power, but also reduce Ethiopia's dependence on hydro resources by diversifying the energy supply mix. IFC will assist Ethiopian Electric Power (EEP) and the PPP Directorate General (PPP-DG under the Ministry of Finance) in developing/structuring, following a competitive tender, an independent power producer to design, finance, build, and operate solar PV-based generation capacity of up to an additional 750 MW.

This is a follow-up to Round 1 which reached commercial close in December 2019 for two solar IPPs of 250 MW, under a mandate signed in 2016 with EEP and later incorporating the PPP-DG (the new procuring entity for PPPs under the PPP Proclamation issued in February 2018).

There will be two phases to IFC Advisory's work:

### Phase 1: Project Preparation

- a. Site selection support
- b. Technical and E&S due diligence
- c. Legal and regulatory due diligence
- d. Sector due diligence

### Phase 2: Bid Preparation

- a. Evaluation of RFQ
- b. Localization of the template Scaling Solar documents
- c. Consultation with IFC Investment / MIGA / IDA
- d. Issuance of RFP
- e. Hosting a bidders conference

IFC Advisory's involvement will cease at commercial close, to avoid conflicts of interest arising on the (possible) entry of other WBG entities into the project.

---

### **People Affected By This Project**

The project will not only increase Ethiopia's installed capacity and energy supply, but will also enhance the ability of the country both to manage its water resources more effectively in the short term and to adapt to climate change on an ongoing basis.

---

## Investment Description

- International Finance Corporation (IFC)

## Contact Information

No contact information provided at the time of disclosure

### ACCESS TO INFORMATION

You can submit a request for information disclosure at: <https://disclosures.ifc.org/#/inquiries>

If you believe that your request for information from IFC has been unreasonably denied, or that this Policy has been interpreted incorrectly, you can submit a complaint at the link above to IFC's Access to Information Policy Advisor, who reports directly to IFC's Executive Vice President.

### ACCOUNTABILITY MECHANISM OF IFC/MIGA

The Compliance Advisor Ombudsman (CAO) is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an IFC or MIGA- financed project. If you submit a complaint to the CAO, they may assist you in resolving a dispute with the company and/or investigate to assess whether the IFC is following its own policies and procedures for preventing harm to people or the environment. If you want to submit a complaint electronically, you can email the CAO at [CAO@worldbankgroup.org](mailto:CAO@worldbankgroup.org) You can learn more about the CAO and how to file a complaint at <http://www.cao-ombudsman.org>
