Project Description

The IFC-UK Market Accelerator for Green Construction Program for LAC will contribute to GHG emission reductions targeted by the governments of Colombia, Mexico and Peru through the promotion of certified GBs. Activities will include public policy dialogue, creation of certified GB stock, raising awareness and private sector capacity building with developers, designers and financial intermediaries, public sector and support for academic programs. IFC's EDGE GB certification system and free design application is central to the Program as a design tool, an educational aid, and an affordable certification method which can recognize different levels of ambition, right up to Zero Carbon emissions.
