Project Description

The project objective is to improve the enabling environment to promote sustainable tourism development, with a focus on creating private investment opportunities. The project will identify the public and private investments required to transition Fiji's tourism sector to be more sustainable (across social, economic, environmental and cultural dimensions) and 'green' (aligned with green building standards, mitigation of the effects of climate change and the conservation of natural resources). The project will focus on two components: working with relevant stakeholders to create private investment opportunities for tourism sector, and working with the Government to enable green investments and promote sustainability of the tourism sector.
