Africa Health Quality Phase 2

Quick Facts

Financial Institutions	International Finance Corporation (IFC)
Status	Active
Bank Risk Rating	U
Voting Date	2022-02-15
Borrower	Clients not available at the time of the snapshot
Sectors	Education and Health, Industry and Trade
Investment Type(s)	Advisory Services
Investment Amount (USD)	\$ 2.58 million
Project Cost (USD)	\$ 2.58 million

Project Description

According to the Bank's website, the IFC Africa Healthcare Quality Program (Phase II) aims to increase access to safe and quality healthcare across Sub-Saharan Africa (SSA) by improving the quality assurance processes and practices implemented by healthcare service providers. The project consists of two components: 1. Advisory work to upgrade quality assurance in healthcare facilities; 2. Enhancing knowledge base and awareness on healthcare quality issues.

Component 1.

The project uses tools of varying level of depth and interaction in its engagements with clients: (i) rapid quality assessment, (ii) full quality assessment, (iii) hospital design review and (iv) implementation support.

Rapid Quality Assessments evaluate the performance of a medical facility across 25-30 performance indicators that allow the facility to identify major gaps in safety practices.

Full Quality Assessments are used to diagnose the quality of facilities' infrastructure, standards, and procedures. Such assessments analyze good practices in place, pinpoint key shortcomings and describe priority remedial actions across 8 key areas, 34 standards and 158 measurable elements. Specialized tools are applied for assessments of laboratories and imaging facilities.

Hospital Layout Design Reviews aim to identify potential infrastructure challenges and provide recommendations on how to prevent/address the challenges in the most cost-effective manner.

Implementation support is provided to client medical facilities that wish to implement a healthcare quality improvement program with support from IFC (trainings and workshops on areas for improvement, periodical consulting on implementation of changes over a fixed period of time (6-12 months), repeat assessments and reviews of refurbishment/expansion plans).

For Component 1, the project will disclose the following results:

- # of entities receiving advisory services

- # of entities that implemented recommended changes

Component 2.

The focus of Component 2 is on increasing awareness of the healthcare quality issues in select target countries. The project organizes practical workshops and sets local communities of practice on healthcare quality. Through this work, a broader range of market participants can receive information on how to address the biggest gaps in healthcare quality.

The project also provides staff training to help drive quality improvement in medical facilities in SSA. Committed senior leadership and well-trained quality managers are key success factors to enable change in operations that will last.

For Component 1, the project will disclose the following results:

- # of workshops, training events, conferences, etc.

- # of participants in workshops, training events, conferences, etc.

- # of participants of events providing feedback on satisfaction

- # of participants reporting satisfied or very satisfied with workshops, training events, conferences, etc.

- # of reports completed

Investment Description

Contact Information

No contact information provided at the time of disclosure.

ACCESS TO INFORMATION

You can submit a request for information disclosure at: <https://disclosures.ifc.org/#/inquiries>

If you believe that your request for information from IFC has been unreasonably denied, or that this Policy has been interpreted incorrectly, you can submit a complaint at the link above to IFC's Access to Information Policy Advisor, who reports directly to IFC's Executive Vice President.

ACCOUNTABILITY MECHANISM OF IFC/MIGA

The Compliance Advisor Ombudsman (CAO) is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an IFC or MIGA- financed project. If you submit a complaint to the CAO, they may assist you in resolving a dispute with the company and/or investigate to assess whether the IFC is following its own policies and procedures for preventing harm to people or the environment. If you want to submit a complaint electronically, you can email the CAO at CAO@worldbankgroup.org You can learn more about the CAO and how to file a complaint at <http://www.cao-ombudsman.org>
