Project Description

According to the Bank's website, IFC will assist the MoPE to structure and tender a PPP contract for the development of mini-grids in the Republic of Chad. This request from MoPE came as a result of an initial assessment made by the WB and IFC Upstream teams of the opportunity to deploy mini-grids in Chad. CTA will capitalize on the WBG SMG initiative which offers a "turnkey" solution to GoC for the rapid deployment of private sector-led mini-grids. As such, the private sector is expected to design, build, finance, operate, and maintain one or more mini-grid sites.
